WATER COMPANY, INC.'S RATE
APPLICATION**

Docket No. W-02351A-11-0231

STATUS REPORT

Pursuant to Decision No. 70558, Picacho Peak Water Company, Inc. ("Company") is filing its biannual status report. In that decision, the Arizona Corporation Commission ("Commission") ordered the Company to file each January and July, a report covering the previous six months that contains all activities regarding the Arizona Department of Environmental Quality ("ADEQ") Consent Order ("Consent Order"). This status report is filed to meet the Company's compliance requirements for a January 2013 report.

1 Over the past year, there have been two significant occurrences. First, the owners
2 of the Picacho Peak RV Park have agreed to install centralized treatment. The system is
3 now being designed by Tres Rios Engineering. Second, after monitoring the Watts
4 Premier point-of-use treatment systems, it became apparent that these preapproved
5 systems were not working as advertised and the manufacturer provided no assistance to
6 solve the problem. Therefore, the Company hired Advanced Water Systems to construct
7 and install new treatment systems. These systems were engineer certified as NSF
8 compliant, tested to make sure they work properly, and the designs were submitted to
9 ADEQ for approval in November 2012. Additional documentation requested by ADEQ
10 was submitted in December. The Company is awaiting ADEQ's approvals.
